4  1 

Set up high with views over Ballandean and Sundown National Park, this 43.02 hectare property has an old farm house on it but there is an amazing homesite to capture the views.

Go for a walk and you'll discover a lovely creek with rock pools and further up the property hidden away for your own pleasure is a huge rock gorge.

This property has so much going for it, you have your own views over a neighbouring vineyard and the possibilities of this property from a tourism venture are limitless.

All this and you can walk to St Judes Restaurant and the Ballandean Tavern.
